

# JOYDIP SARKAR

Senior Web Designer | 10+ years of experience

My core expertise includes HTML5, CSS3, Bootstrap, jQuery, and JavaScript fundamentals, with extensive experience building marketing websites, corporate platforms, landing pages, dashboards, and reusable UI components. I work closely with designers and backend teams to ensure accurate design implementation, smooth integration, and maintainable code structure.

To stay aligned with modern front-end development trends, I am actively upgrading my skills in JavaScript, React, and Next.js, focusing on component-based architecture, performance optimization, and modern UI workflows.
